Topic: Reducing Carbon emissions to slow down global warming.

The General Assembly:

Reminding the UN that Earth Day was just over a month ago and there will be drastic consequences to our beautiful Earth if we do not make a global effort to reduce carbon emissions which trap heat causing rising water levels, heat waves, and storms.

Reaffirming the 2017 resolution *Towards a global pact for the environment* that enforces countries to focus on poverty levels and how the environment is affecting people.

Noting that several countries already have programs in place to reduce carbon emissions and become a eco friendly country by a certain year.

a. Over 55 countries have already made promises to cut or reduce carbon emissions.

Stressing that any country with a coastline should be worried about the rising water levels which are a big consequence of global warming which is increased by carbon emissions.

5. We Urge and Request all members to make a promise to reduce carbon emissions by 2050. The countries of the world need to take care of the Earth or there will be no Earth.

The General Assembly,

Taking into consideration the previous events of tension throughout the world due to the nuclear weapons ,

Keeping in mind the fact that humanity at a whole is the forefront of our agenda,

Fully aware of the danger of space weapons,

Recognizing the dangers that alien life could impose

1. Requests all future militaristic weapons remain in our atmosphere
2. Designates areas outside of our atmospheres to be a peaceful area, including planets, moons, or asteroids;
3. Further Invites all countries to ban together to form a neutral space and expand upon our knowledge of the universe.

Topic: The Abolition of Nuclear Weapons

The General Assembly,

Given that nuclear weapons are the most devastating and effective weapon humanity has ever created at destroying human life, and are already responsible for the deaths of thousands and numerous conflicts across the globe,

Noting that the only reason a country would need to stockpile nuclear weapons is to protect itself from another country with nuclear weapons,

1. Calls for the removal of the nuclear weapons and facilities of each and every country, and the infrastructure used for the construction of nuclear weapons to be either destroyed or repurposed as a new facility for creating Nuclear Energy under the surveillance of the United Nations within a time constraint of 10 years;
2. Authorizes the only nuclear weapons are to be owned by the United Nations and are only to be used in a case where there is unanimous support from all members of the United Nations General Assembly;
3. Requests a new branch of the United Nations to be formed for overseeing the storage and maintenance of the remaining nuclear warheads under the control of the United Nations and shall oversee routine inspections of countries' nuclear energy infrastructure to maintain and ensure that no new nuclear weapons are being created without the approval of the United Nations. The branch shall be named the UNNWID (United Nations Nuclear Weapons Insurance Department).

Topic: "Human Rights Violations in UN Countries"

The General Assembly,

Reaffirming, the UN Charter on Human Rights, which recognizes the inherent dignity, equality and inalienable rights of all global citizens,

Declaring, the current human rights abuses by the governments of UN members all around the world goes directly against what was adopted by all signatories of the Human Rights Charter,

Further recommends, given the current, "textbook ethnic cleansing," of the Rohingya people taking place in Myanmar according to the UN Human Rights monitors,

1. Calls upon the UN general assembly to adopt the resolution that all countries in the UN must follow the Human Rights doctrine and make it law in their country.

2. Authorizes the UN to impose sanctions against those that discriminate against muslim populations of the world,

3. Further reminds the counties of the UN to protect their people and their inalienable human rights.

General Assembly Third Committee

Signatories: Cuba, Philippines, Italy, Turkey, Canada, Switzerland, Spain, United Kingdom, & China

Topic: "Human Rights Violations"

The General Assembly,

Emphasizing, legalizing the death penalty, which is the termination of the unfit; those who have 1st degree murder, Torture, Child Rape, Human Trafficking, Acts of Terrorism and Genocide.

Noting with satisfaction the past efforts of various relevant UN bodies and nongovernmental organizations,

Stressing the fact that the United Nations faces significant financial obstacles and is in need of reform, particularly in the humanitarian realm,

1. Encourages all relevant agencies of the United Nations to collaborate more closely with countries to eliminate the unfit of society, namely the delinquent criminals;
2. Urges member states to comply with the goals of the UN Department of Humanitarian Affairs to establish efforts of human extermination;
3. Requests that all nations develop rapid deployment forces to better enhance the coordination of tracking delinquent criminals;
4. Stresses that this is not enforcing the League to enact the killing of the criminals but giving the option to do under such circumstances.
